

WHO IS NAMI?

SIMPLY PUT, WE ARE GLASS GOODS WITH A PURPOSE.

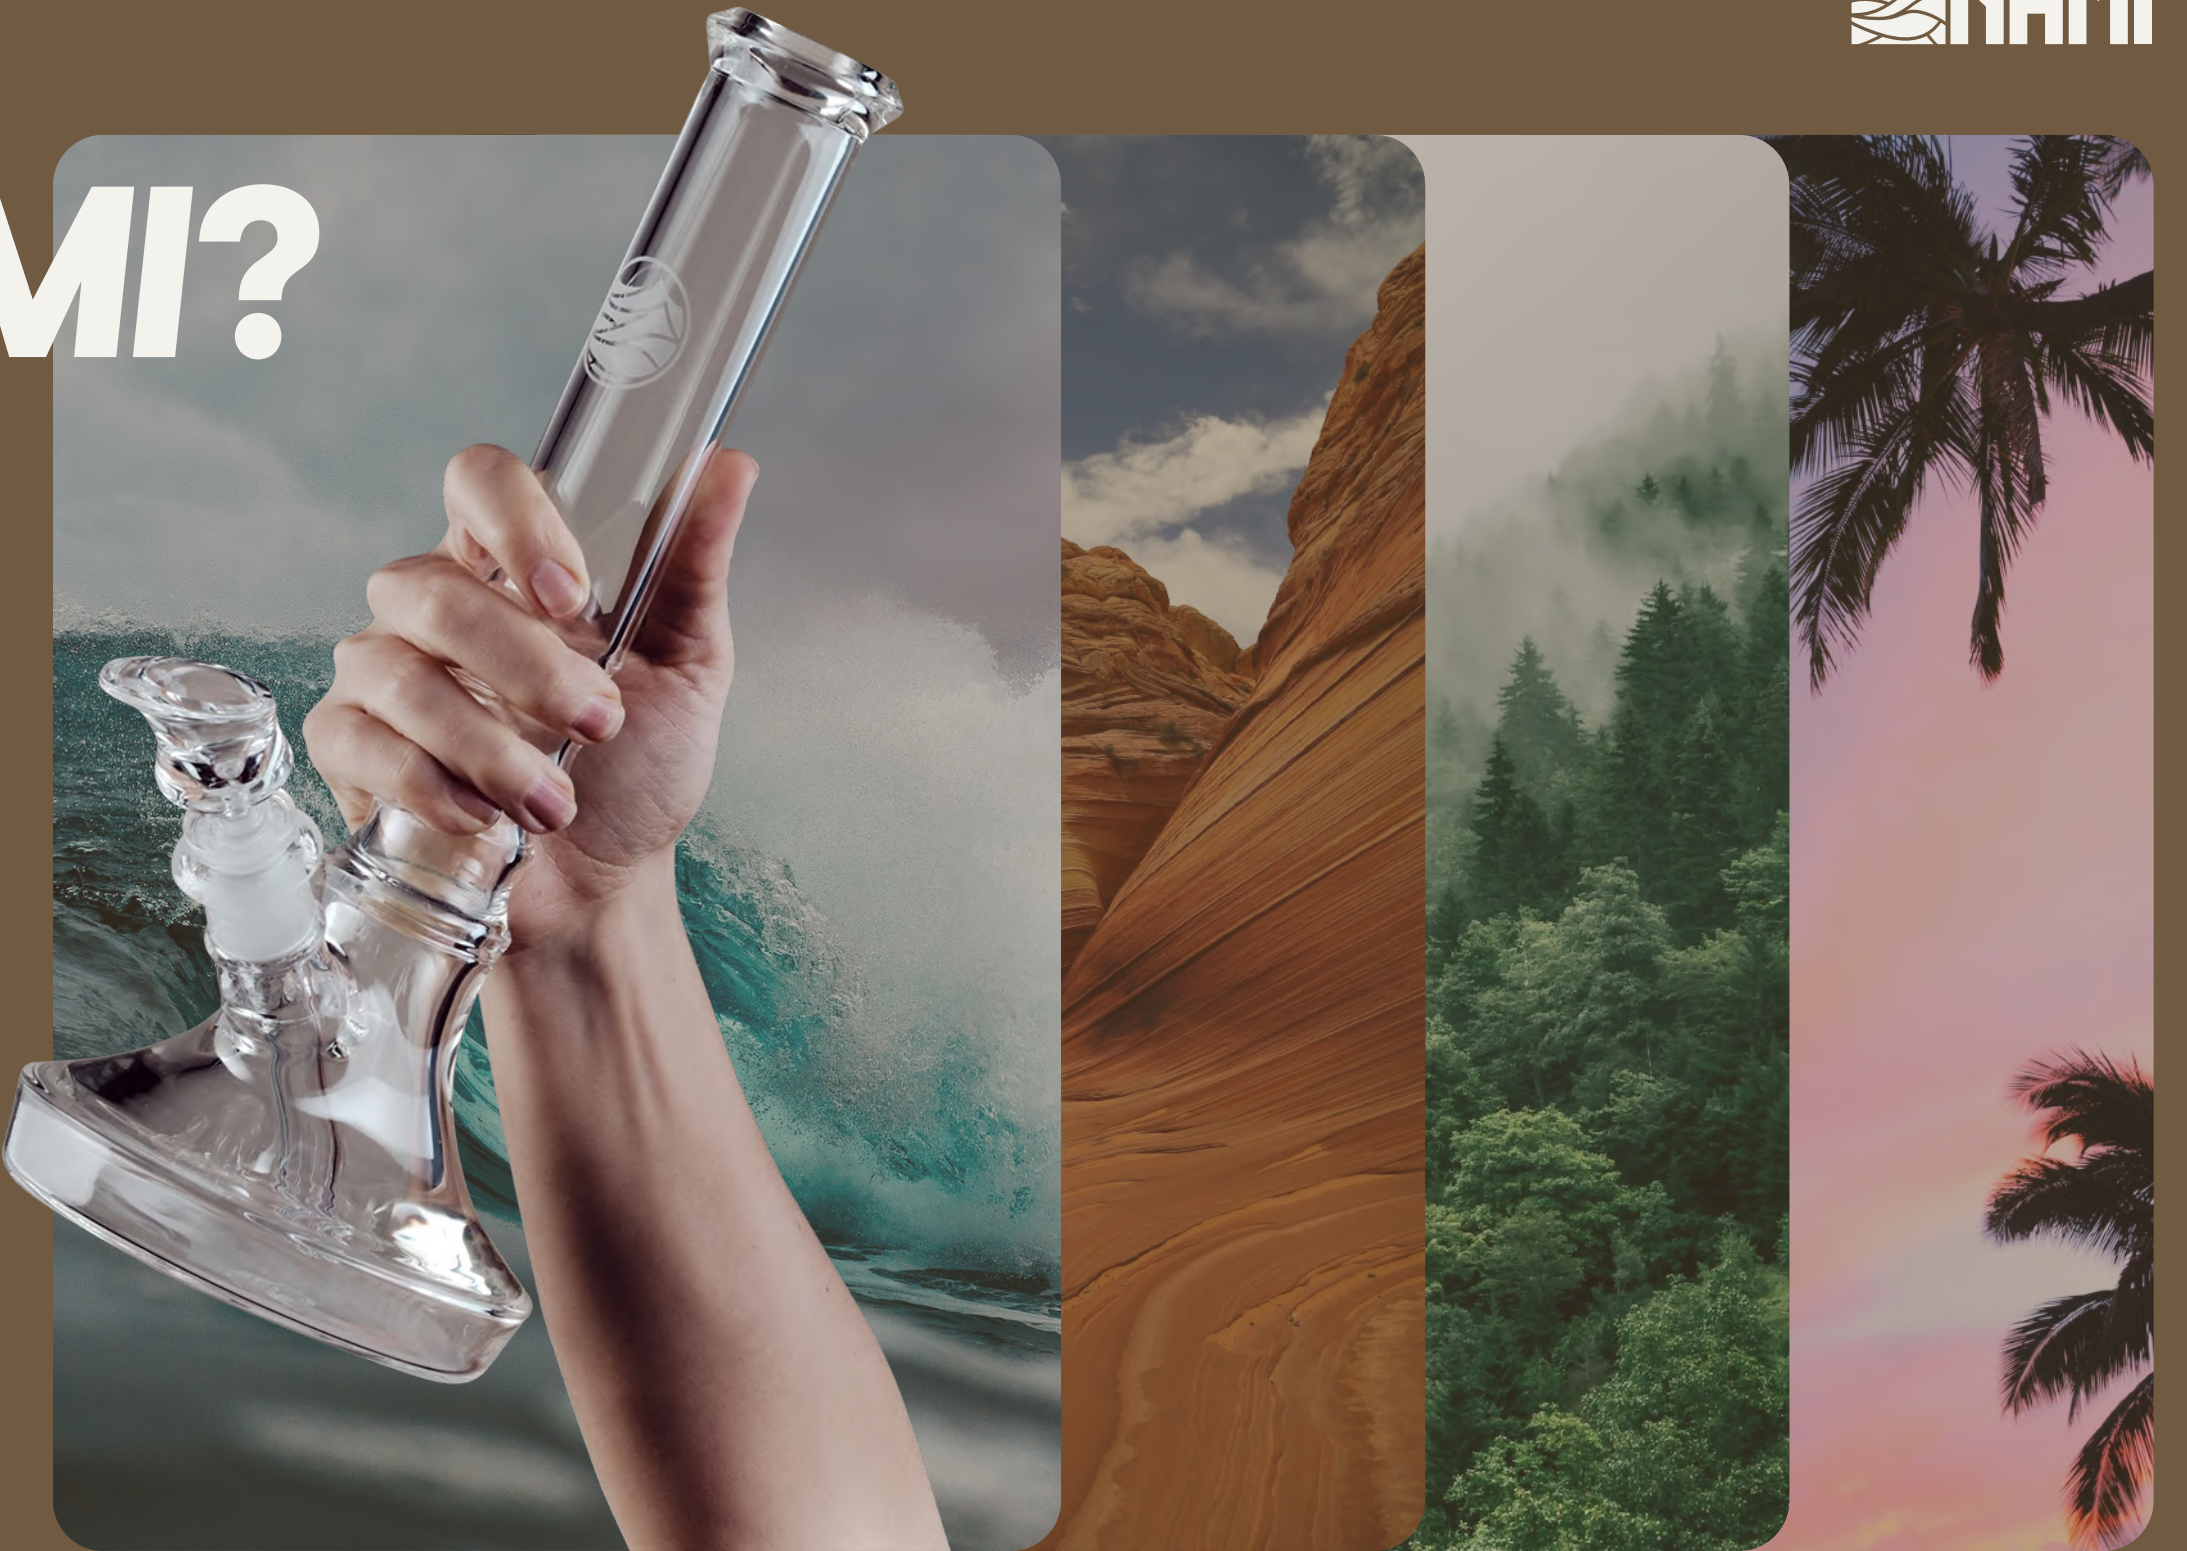

As cannabis enthusiasts who spend a lot of time in the great outdoors, we have seen and heard the call to action for our generation to preserve the planet's precious spaces and help counteract the negative affects of climate change. We also recognize the need for an ethical accessory brand that provides high-quality products at an accessible price point.

By connecting these dots, we have efficiently created an eco-conscious glass line with the mission to give back to the planet and protect our sacred smoke spots.

WE ARE ALL CONNECTED.

We see and feel the vibrations in all things; waves upon waves of energy make up each and every thing we experience. Our products allow curious cannabis aficionados to dive into a state of peace and tranquility.

We've obsessed over the look and feel of each item in our line-up to bring a sleek and stylish look to the smoking accessory market, all at prices that anyone can get behind.

RIPPLE BEAKER

MSRP \$135

Dimensions: 12"x5"
Weight: 1.6lbs
Thickness: 14mm

This borosilicate glass Beaker comes with a custom down stem with an open-ended six-slit design to create seamless airflow for ideal percolation. Each Beaker includes a custom designed 14mm male angled bowl for flower and features Nami's signature Ripple line, resembling the soothing waves of the ocean to elevate your session experience.
